

# Aries 213

## UV DTF Printer

Compact UV sticker printer built for **consistent, efficient everyday runs.**

## Details in Every Drop

### Print and laminate in one machine.

A 2-in-1 solution for permanent sticker application on rigid substrates, with no separate laminating step.

### CMYK, white and varnish.

Five channels give stickers depth as well as color, with varnish for the finished surface.

### White ink that stays ready.

WIMS prevents clogging and maintains consistency, and active and passive auto-cleaning cut downtime.

### Built-in filtration.

Filtration is integrated into the machine, so it runs on an open shop floor without a separate extraction setup.

### Touchscreen control.

An intuitive control panel keeps daily operation simple for an operator who is not a technician.

### Support and warranty

- **Lifetime** DTF Station tech support
- **1-year limited warranty** on non-consumable parts
- **neoStampa RIP** included
- 2-in-1 print and laminate, no separate laminator

**See it run.** Contact your DTF Station dealer or visit [dtfstation.com](https://www.dtfstation.com).

# Print and Laminate In One Pass.

## Stickers that stay put.

The Aries 213 prints and laminates in a single pass for permanent sticker application on rigid substrates. For shops adding UV DTF to an existing DTF operation, the appeal is that it does not add a second machine or a second handling step.

## Five channels, not four.

CMYK plus white plus varnish means stickers carry both color and surface finish. Varnish is what gives a UV DTF sticker its depth and its resistance once applied.

## Compact enough to add.

At 48" wide on standard 110V, the 213 fits alongside an existing line rather than requiring a new bay. Built-in filtration means no ventilation ducting.

### Install & Facility

|                        |                 |
|------------------------|-----------------|
| Dimensions (W x D x H) | 48" x 36" x 45" |
| Machine Weight         | 280 lb (127 kg) |
| Power Supply           | 110 V           |
| Rated Current          | 7.27 A          |
| Power Consumption      | 800 W           |
