

FoldFlex 100

Garment Folding

Compact semi-automatic folding machine **streamlining packaging** with ease.

Fold More, Stress Less

360

Output per hour

3

Stations

Fold, stack and bag.

3 jobs in one machine, which is the whole packaging step for most apparel orders.

Up to 360 shirts per hour.

360 folded or 240 bagged per hour, against roughly 60 to 100 by hand.

Running in 2 minutes.

Select a mode, press start. Setup is short enough that it is worth using on small orders too.

Handles most garments.

T-shirts, polos, long sleeves, hoodies and more, without changing tooling between them.

Safety built in.

Emergency stop and overload protection on a machine with moving parts and a compressor.

Support and warranty

- **Lifetime** DTF Station tech support
- **1-year limited warranty** on non-consumable parts
- Fits through standard doorways
- Emergency stop and overload protection

Fold, Stack and Bag, In One Machine.

The last manual step.

Printing gets automated, pressing gets automated, and then someone folds 300 shirts by hand. The FoldFlex 100 folds, stacks and bags in one pass at up to 360 folded or 240 bagged garments per hour.

Worth using on small orders.

Setup is a mode selection and a start button, roughly 2 minutes. That matters because a machine that takes 20 minutes to set up only gets used on the big jobs, which is where the labor was least painful anyway.

Compact and safe.

It fits through standard doorways, which suits tight or mobile setups, and emergency stop plus overload protection are standard.

Install & Facility

Dimensions (W x D x H)	43" x 30" x 40"
Machine Weight	320 lb (145 kg)
Power Supply	110 V
Rated Current	0.27 A
Power Consumption	30 W
Air Compressor	1,100 W, 9 L, 75 L/min
Working Pressure	0.4 MPa (58 psi, 4 Bar)
