

Prestige XL2 Pro

DTF Printer

Dual printhead, 9-color system for users who need **high color fidelity** and professional output.

Expand Your Gamut

23.62"

Print width

9

Ink channels

2

Printheads

9 colors, not 4.

CMYK plus white plus Light Cyan, Light Magenta, Green and Orange, for vibrant and accurate color reproduction.

Dual printhead configuration.

An Epson i3200HD paired with an i1600 delivers the extended gamut without giving up output quality.

23.62" (60 cm) print width.

Full 24" class output at 45 to 65 sq. ft. per hour.

White ink that stays ready.

WIMS prevents clogs and keeps white consistent across long color-heavy runs.

Head strike and tension sensors.

Printhead protection and smooth material handling, with active and passive auto-cleaning for reduced downtime.

Support and warranty

- **Lifetime** DTF Station tech support
- **1-year limited warranty** on non-consumable parts
- **6-month warranty** on up to 2 printheads, with onsite training and installation
- **neoStampa RIP** and DTF Station Pilot driver included

Dealer Locator

9 Colors at 24 Inches.

9 colors, not 4.

The XL2 Pro runs CMYK plus white plus Light Cyan, Light Magenta, Green and Orange. The extra 4 channels smooth gradients and hold accurate color on the shades a 4 color process can only approximate, which is what separates a good print from a matched one.

Where the gamut earns its keep.

Photographic artwork, brand colors that have to match, and gradients that would otherwise band are the jobs where the extra channels pay for themselves. For flat spot color work, a 4 color XL2 is the better buy.

Production automation as standard.

WIMS keeps white circulating, active and passive auto-cleaning cut downtime, and head strike plus media tension sensors protect a long run.

Install & Facility

Dimensions (W x D x H)	65" x 37" x 58"
Machine Weight	300 lb (136 kg)
Power Supply	110 V
Rated Current	7.27 A
Power Consumption	800 W
