

Prestige XL4

DTF Printer

Industrial-level **speed and precision** for the highest volume DTF production.

Power Meets Precision

23.62"

Print width

150 sq ft/h

Print speed

4

Printheads

4 Epson i3200 printheads.

130 to 150 sq. ft. per hour, which is the fastest 60 cm output in the Prestige line.

23.62" (60 cm) print width.

Full 24" class output, built to keep a high volume queue moving.

White ink that stays ready.

WIMS prevents clogs across shifts, not just across jobs.

Head strike and tension sensors.

Printhead protection and smooth material handling under continuous load.

Active and passive auto-cleaning.

Automated maintenance keeps an industrial floor from stopping for upkeep.

Support and warranty

- **Lifetime** DTF Station tech support
- **1-year limited warranty** on non-consumable parts
- **6-month warranty** on up to 2 printheads, with onsite training and installation
- **neoStampa RIP** and DTF Station Pilot driver included

Dealer Locator

4 Printheads, Industrial Pace.

Built for the highest volume.

4 Epson i3200 printheads run 130 to 150 sq. ft. per hour at a 23.62" (60 cm) width. If the constraint on your floor is how fast transfers come off the printer, the XL4 is the answer in the 60 cm class.

Speed without losing the run.

A head strike sensor protects the printheads, a media tension sensor keeps roll material feeding evenly, and active and passive auto-cleaning run without stopping the job.

Plan the finishing to match.

At this output a 24" or 36" shaker and a matched heat press are what keep the line balanced. A Seismo L24R or Miro 36 is the usual pairing.

Install & Facility

Dimensions (W x D x H)	85" x 42" x 65"
Machine Weight	445 lb (202 kg)
Power Supply	110 V
Rated Current	9 A
Power Consumption	1,000 W

Specifications
